A letter

The Council For Tobacco Research - USA, Inc.
900 Third Avenue
New York, NY. 10022

Dear Sirs:

This is to request two application forms and pertinent instructions for a research grant dealing with the characterization of the structure of a 76 kDa muscle membrane surface tobacco glycoprotein binding protein we have recently discovered in our laboratories. We believe the Council For Tobacco Research will be interested in supporting our research effort in this area.

We are looking forward in hearing from you soon.

Thank you.

Sincerely yours,

Dr. Charles A. Santos-Buch
Professor of Pathology

Dr. Jill A. Inverso
Assistant Professor of Pathology
